Build Basic Generative Adversarial
Networks (GANs)

Mariam Hussein

AI Engineer | Data Scientist | Master’s in AI | Certified ML Engineer
Beirut Governorate, Lebanon

Summary

Passionate about the power of data to drive change, my journey began at Lebanese University, where I earned a degree in Data Science. From data collection and cleaning to analysis, statistics, and machine learning, I built a solid foundation with a creative and curious mindset.

After exploring the power of AI to enter various fields, I am currently pursuing a Master's in Artificial Intelligence. My academic and professional endeavors have equipped me with a strong foundation in AI, preparing me to contribute meaningfully to innovative projects and cutting-edge research.

Driven by a commitment to continuous learning, my aim is to be at the forefront of shaping tomorrow's intelligent systems responsibly. By blending the power of data science and AI, I aspire to make a significant impact in the field of AI.

Welcome to my platform, where we pioneer the ethical and responsible frontiers of AI and data.

Experience

- Assentify

2 years

AI Engineer

September 2024 - Present (1 year 9 months)
- AI Engineer

June 2024 - September 2024 (4 months)

Beirut Governorate, Lebanon

- American University of Beirut

Academic Assistant

December 2024 - Present (1 year 6 months)

Researching and reviewing academic literature and books to develop comprehensive AI courses, including creating engaging content, assignments, and quizzes to enhance learning experiences.
